SUMMARY

As a Junior Full Stack Developer, I have a solid foundation in both front-end and back-end development. I possess knowledge in HTML, CSS, and JavaScript for building responsive and user-friendly websites. I am also familiar with popular front-end frameworks such as React and Next.js, and have experience in back-end development using languages such as Python and JavaScript, and databases such as MySQL and MongoDB. In addition to my technical skills, I am a strong team player with excellent communication skills and a willingness to learn and grow. I am always eager to take on new challenges and improve my skills through continuous learning and collaboration with my colleagues.
