

Wasim Al-Tayan

+90-505-173-0196 | wasimtayn@gmail.com | [GitHub](#) | [LinkedIn](#) | [Personal Portfolio](#)

Skilled Front-End Web Developer with expertise in JavaScript & TypeScript, React, and a strong aptitude for problem-solving, analytical thinking, and teamwork. My passion lies in developing engaging websites that educate, inform, and entertain users.

TECHNICAL PROJECTS

Learn U:

[GitHub](#) | [Demo](#)

- *dynamic learning platform designed to offer a wide range of courses and resources across various subjects, catering to learners of all ages and skill levels and exploring their educational interests at their own pace, offering many tools such as*
 - **Segmented Exploration:** Course discovery is organised by distinct categories.
 - **Dark Mode Inclusion:** Our platform is tuned to diverse user preferences by incorporating a unique Dark Mode feature.
 - **User Verification:** Robust authentication of users ensures a secure platform for participation and interaction.
 - **Global Language:** Support: Seamless access to content across multiple languages.
 - And more...
- I used NEXT.js and Firebase for the primary database and authentication.
- Cypress for end-2-end testing
- I effectively managed a team of developers to deliver high-quality software solutions.
- In my time with "Learn U", I worked with Next-intl and Next-theme for translation, implemented Dark Mode, And set up app services.

Promptopia - AI Prompting Tool:

[GitHub](#) | [Demo](#)

- *Promptopia is a full-stack app for generating prompts in line with the contemporary world. Utilising Promptopia, you can effortlessly unearth, craft, and distribute imaginative cues, thus unleashing your creativity and enriching your creative undertakings. Promotopia offers a lot of features, such as*
 - **Personalised:** Each user has his or her protected profile page and sign-in methods with Google.
 - **Support CRUD Functionality:** As a full-stack application, the user can create, read, update and delete their prompts
 - **Search for Prompts:** The users can search by tag or any related word
 - **Fully responsive:** Support all screen types
- Used NEXT.js and MongoDB as the main DB and Google Authentication
- In my time with "Promptopia," I got to work with almost all the features that NEXT provides, like:
 - **API Routing:** Creating end-points to handle connecting with the DB
 - **next-Auth:** to ensure that each user can sign up & and sign in to the app
 - **Server Side Render:** Build (SSR) components

project from my beginning as a software engineer:

The Movie Project -

[GitHub](#) | [Demo](#)

Users on this site can pursue a collection of films and actors and obtain a concise overview of each I have used HTML and CSS to create the structure and styles of the page.

- Utilised Tailwindcss framework for styling.
- Applied Functional Programming design with pure JavaScript.
- Followed some of the SOLID principles

SKILLS:

Life: Teamwork, Communication, Leadership, Analytical thinking, Problem-Solving, Project Management, Flexibility, Active Listening, Giving/Receiving Feedback, Prioritizing.

Technical: JavaScript, TypeScript, React.js, Redux.js, ContextAPI, NextJS, Serverless-services, Firebase, HTML, CSS, Tailwindcss, Git, GitHub Linux,

Familiar with: MongoDB, Node.js, RESTful API, Express.js, OOP

EMPLOYMENT HISTORY:

Freelancer, Remote

Front-End Developer, 07/ 2023 – *present*

- Build three landing pages for different companies
- One of the pages has successfully generated significant traffic, leading to increased deals.
- Created a personal blog for a designer to showcase her work

Re:Coded Bootcamp ([Re:Coded](#) + [Flatiron School](#)) 03/2023 — 09/2023

Online Immersive Front-End Bootcamp

- Complete a rigorous 5-month with 400+ hours of web development program conducted by Re:Coded in collaboration with Flatiron School.
- Technologies: HTML, CSS, JavaScript, React, Next

Damascus University 10/2017 — 05/2018

Diploma · Small and medium enterprise management

This diploma program provides students with the knowledge and skills necessary to start and manage a small or medium-sized enterprise (SME). Students will learn about all aspects of SME management, including business planning, marketing, finance, operations, and human resources. They will also gain an understanding of the unique challenges and opportunities that SMEs face.
