

Not ready

Roon ARC will not be able to access your Roon Server

Roon ARC was unable to securely access your Roon Server
Please ensure UPnP is enabled on all routers so Roon can automatically configure your network for ARC

Start troubleshooting

Listening port

Set the local port your Roon Server will listen on. This port is used for a secure connection between Roon ARC and your Roon Server.
[More info](#)

ROON SERVER IP

192.168.1.5

PORT

55002
