## DESIGN PROJECTS

### Echoasis app
- Empowers hearing-impaired individuals with real-time text, audio visualization, and sign language features.
- My role: User research, design, prototyping, usability testing, and collaboration with 3 designers at Re:coded UX/UI bootcamp.

## EXPERIENCE

### UXUI Designer
Re:Coded                                                                                    04/2023 - 08/2023
- I attended 6 hours of instructor-led classes weekly for 7 weeks to gain UX/UI skills. During the bootcamp.
- I had the opportunity to work with two different teams on two UX/UI projects.

### Musician & Voice-over
Freelancer                                                                                    2015 - 2023
- Recorded and edited high-quality audio material, delivering projects on time and within budget for over 50 satisfied clients such as **Oredoo**, **Jawwal**, and **Paltel**.
- Composed and arranged original music for different audio materials.
- Utilized technical proficiency to ensure seamless execution of performances at multiple festivals, garnering positive reviews from fans and industry professionals alike.
- Performed live with a band in front of 3000+ people at the prestigious (**Copacobanal** / **Arabesques**) festivals, engaging the audience through the modern style of traditional Palestinian music.

## EDUCATION

### Business Management
Istanbul Aydin University                                                                     2020 - 06/2023
