

Waiting for your Roon Server

Your Roon Server doesn't seem to be running.

Start Roon Server

Select a different Roon Server

[Need help?](#)

1 minute later back again...

Waiting for your Roon Server.

Your Roon Server doesn't seem to be running.

Start Roon Server

Select a different Roon Server

[Need help?](#)

Then, let's try a different server...

Select a different Roon Server

If you select a different Roon Server, you won't be able to access the music you had before. Is that what you want?

No

Yes

That didn't work either.

Let's try starting (again) Roon server in my Mac, as it's always been-

Connect to your Roon Server

The Roon Server is the brain of your Roon system. It manages your Audio devices, music library, and any Roon Remotes on your network.

Find my Roon OS device (Nucleus, ROCK, etc.)

Find my Roon Server

Looking for your Roon Server

Make sure your Roon Server is powered on and connected to your network.

[Help](#)

OR

Start Roon server on this Mac

Your music library and audio devices will be managed by this Mac.

And we are back at the starting point again.

Waiting for your Roon Server.

Your Roon Server doesn't seem to be running.

Start Roon Server

Select a different Roon Server
