

Would you like to be part of Research to Improve **Cancer Care** for **Autistic Patients** in the Northwest?

The Study: Understanding the Needs of Autistic Patients with Cancer

A research team from The University of Liverpool, The Clatterbridge Cancer Centre & Liverpool University Hospitals NHS Foundation Trust is conducting a participatory research project.

The aim of the project is to co-develop recommendations and guidance for cancer services in the Northwest region and to create information tailored to autistic individuals to help prepare for cancer care services.

Who Can Participate?

- **Autistic patients** or relatives of autistic patients who have experienced cancer care in the Northwest in the last 12 months.
- Healthcare professionals who have assisted autistic patients during cancer treatment in the Northwest.

Participation Opportunities:

Interviews: One-hour interviews (online or face to face). Compensated with a £20 voucher.

and/or

Workshops: Three-hour in person. Compensated with a £60 voucher.
