Projects

Byte and Bite - DEMO | CODE

A platform connecting users with local cooks for homemade food experiences, built with Node.js and MongoDB.

- Collaborated in a team to design an architecture, integrating user authentication and Google signup.
- Enabled local cooks to showcase dishes, manage orders, and offered an admin dashboard for management.
- Utilized TypeScript, Express.js, and Swagger for efficient API documentation.
- Ensured scalability and maintainability through a well-planned Entity-Relationship Diagram (ERD).
- Contributed to weekly team leadership rotations and project development.

Technical Skills

- Node.js
- MySQL
- JavaScript
- MongoDB
- Express.js
- Docker

Soft Skill

- Observation
- Decision making
- Communication
- Multi-tasking
- TeamWork

Languages

- Persian — *Native*
- Turkish — *Full professional proficiency*
- English — *Limited working proficiency*

About Me

Backend developer with a strong educational background and hands-on experience in building robust web applications. Proficient in Node.js, PostgreSQL, MySQL, MongoDB, Express.js, Docker, AWS, Git, and JavaScript. Skilled in developing scalable and efficient solutions. Graduated from Re:Coded's backend bootcamp with an associate degree in IT and a bachelor's degree in economics. Detail-oriented with excellent problem-solving skills and a passion for continuous learning and improvement in backend development.
