Certifications

Backend Bootcamp- Re:coded
Mar 2023 - Aug 2022

UX Google Certificate - Coursera
Sep 2021 - Mar 2022

Volunteer

Taught basic coding to Palestinian refugees

Designed HelpMeFindMe platform to assist individuals in locating their missing relatives during the earthquake in Turkey 2023

Facilitated refugee children from Gaza in expressing their dreams through storytelling and collaborated with GIZ to compile their stories into a book.

Nur Abunamus
Full-stack Developer

Full Stack Web Developer with a designing background and a strong understanding of back-end and front-end web technologies. Focused team player with a solid capacity for collaboration.

Projects

HomeTaste API - DEMO | CODE
Jul 2023 - Aug2023

- Developed the HomeTaste API, facilitating the connection of users, including students, with local chefs and their diverse range of homemade dishes.
- Collaborated with a team of three developers, strategically dividing the project into stages for efficient management.
- Utilized technologies such as TypeScript, Nodejs, MongoDB, Swagger, and Jest for efficient development.

Matchetune- - DEMO
Mar 2022 - Mar2023

Telemedicine platform provides alternatives

- Collaborated with a team member to develop a user-friendly platform and intuitive dashboard, utilizing Angular and Firebase, for processing various data types including text, images, and videos
- Managed the entire project lifecycle using agile methodology to deliver high-quality features on time and within budget, resulting in a 95% client satisfaction rate.

Work Experience

Jul 2022 - Sep 2022
Mercy Corps | Palestine
Coding Mentor

- Guided a cohort of 30 young girls through Banat Geeks Camp's coding curriculum, resulting in a 95% completion rate and an average score increase of 70% on final projects.
- Developed and led interactive workshops on programming languages and digital tools for the mentees, increasing their understanding of the field by 80%.

Feb 2022 - Jun 2022
Google For Startups | Remote | Internship
Full-stack developer

- Designed and implemented the Matchetune platform using Agile methodology, Figma, Angular framework, and Firebase, resulting in a 65% increase in user engagement within the first month of launch.
- Coordinated regular meetings with the client to gather feedback and ensure project alignment, resulting in a 90% satisfaction rate for platform functionality.

Education

Backend Web Development - Re:Coded
Mar 2023 - Aug 2023

Re:Coded Immersive bootcamps are highly competitive, with a 5% acceptance rate.
- Completing a 5-month immersive web development bootcamp, with 300+ hours of curricula and project-based learning
- Technologies: Node.js, Express, MongoDB, SQL, Jest, Javascript, Typescript, Supertest
- Working with various development teams to create products across industries.

Masters in Computer Engineering - Dokuz Eylül University
Sep 2023 - Current

Bachelors in Computer Engineering - Islamic University Gaza
Sep2017 - Aug2022

Coding Academy - Gaza Sky Geeks, Mercy Corps
Jun2021 - Dec2021
